

No Matter the Scope We Can Engineer It

As design-build specialists we consistently create solutions to custom fit production lines

24 HOUR EMERGENCY SUPPORT
(909) 860-6590

Our Services

By having in-house engineering, we enable our customers to have the ability to use creative solutions for all their electrical challenges.

- ✓ From preconstruction to start-up engineers at DBE aim to save customers time & money
- ✓ Arc Flash Engineering Studies are offered to understand the risk of a flash at your facility
- ✓ Our design solutions are applied for Title 24 lighting, power, UL Approved Panels, & more

Industrial Specialists

Your plant is faced with increasing challenges every day. Costs keep rising, regulations are changing and your buildings need to have efficient, safe, and sustainable environments to operate. DBE engineers can help tackle all these challenges.

Diamond Bar Electric

We continue to build on a firm foundation of more than 30 years of significant growth and experience in industrial facilities, by providing customers with a tangible ROI & performing the highest quality work.
